

YOUR PHARMACY FREEDOM INDEX (PFI) SCORE

CONGRATULATIONS ON CALCULATING YOUR PHARMACY FREEDOM INDEX (PFI)

The 75 questions you answered are all directly related to the 3 critical elements, you need to score high in, if you realistically want to build a smarter, more successful 21st century pharmacy. To refresh your memory the 3 critical elements are:

OPERATIONAL EFFICIENCY: (Your Money, Your Pharmacy, Your Team)

PATIENT CENTRIC BUSINESS MODEL: (Your Patients, Innovation, Your Partners)

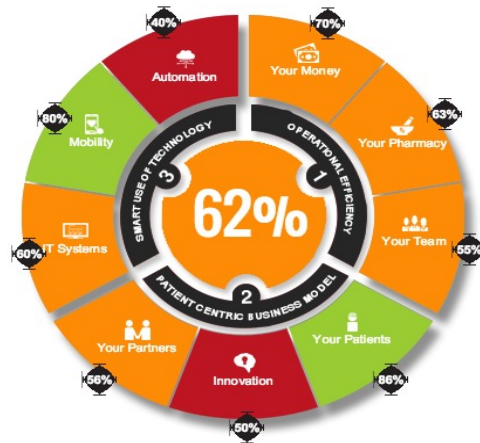

SMART USE OF TECHNOLOGY: (IT Systems, Mobility, Automation)

You've been given a percentage score out of 100, for each of the 9 functions that form part of the 3 critical elements. Hover your mouse over each of the 9 functions, for function definitions.

Additionally we've given you an overall score, which has been calculated by taking your individual percentage scores, for each of the 9 functions and converting them into one overall score. You can use the same scoring legend, as an overall guide to your likelihood of succeeding (or failing) in your ability to create financial freedom or a higher valuation business exit on your own terms, based on your overall result.

If you'd like to dig deeper into your results and receive assistance with creating a successful 'Transpharmation' road map for your business, then please fill out the form below and one of Robert's team will be in touch shortly to organise a suitable time to meet up and get your pharmacy on track for success in the 21st century!

SCORING LEGEND

0 to 50%

51 to 75%

76 to 100%

STOP NOW

This function within your business, that's scored red, requires urgent attention, if you want your pharmacy to realistically succeed in the 21st century. If you continue on whilst your efforts in this functional area are in the red zone, you're likely to struggle and be weighed down. Think of this area as your biggest opportunities and your urgent priorities for the immediate future.
